

spent on the beach. Joe is dividing his time by fishing, crabbing and golfing while the family literally live in the Bay.

Hank Evans had an unusual experience the other day while setting his crab trap. Seeing a fishing pole floating in the water he retrieved it and found a hook and castan. He made a nice meal said Hank.

A party of four men spent three days last week as guests of Dee Elliott batching at the Elliott home. They were Luke Elliott of Baton Rouge, David and Jack Shibley, New Orleans, and Bob Horkey of Norfolk, Va. It was three full days crowded by soft crabbing, fishing and golfing. A swell bunch of sports who could make some woman's good wife.

All did the cooking, washing the dishes and leaving the house spotless and span. Yep, they had all been boy scouts you can bet.

Fishing licenses expire on June 30 according to an announcement made by local game warden Pat Toomy. New licenses should be available this week. Get yours now and save yourself and the game warden embarrassment.

Bob Horkey, his wife Betty and three children were down South from Norfolk, Va. They left Wednesday to return home after enjoying a real vacation. Bob is a swell guy and loves all kinds of sports. He kept up with the other fellows in catching his share of fish. Hope we see you next year Bob.

Rosendo Van Pekki of Panama

City has been visiting his parents Mr. and Mrs. Van Pekki for the past week. He said he has enjoyed his visit and made several friends while here.

Van Pekki left Wednesday for Honduras after spending some time in Bay St. Louis with his family. He was really recuperating from an operation he had while here. Van said the fish caught around here are, please compare to the ones caught in the tropics. Some of the deep sea fish weigh 400 pounds etc.

Another real steak dinner was served Saturday night at the Pass Christian Isles Golf Club June 13 from 9:30 until

The Bay St. Louis Division meeting of Scout men will be held on June 25 at 7:30 p. m. at the Legion Home for all Unit Leaders, Division Leaders and Committee men. Make plans to attend.

With the extreme hot weather we are having, it's better to go fishing at day break and late in the afternoon. Fish don't usually bite in the middle of the day, anyway.

Some anglers will insist that this is gilding the lily, others will plainly say that the Arbogast people are out of their minds. But what they've done to the Jitterbug is certain to be a good thing for the guy who loves to watch a surface bait work. They've put a joint in the Jitterbug, actually

### PROGRESS IN MISSISSIPPI

Of all the things made in Mississippi, perhaps the most important is progress. Progress doesn't come easy, and if it does, chances are it isn't permanent. But Mississippi progress is and has been permanent. What makes it possible?

Look at Mississippi's agriculture manufactured them in two matching sections and hooked the pieces together with a hook and eye. The resulting action will key up the nerves of any angler. And Heaven

is a good month to fertilize for high production. Here are some places that you can profitably use fertilizer:

Grass pastures that had clovers growing in the early spring, or those that were nitrated in early spring can use some additional nitrogen now. For more grazing or a cutting of hay and grazing, 40 to 60 pounds of nitrogen to the acre will get good growth.

Coastal Bermuda cut for hay can use 60 pounds of nitrogen to the acre for another hay cutting.

Coastal Bermuda set this spring and which has runners growing can use 40 pounds of nitrogen per acre.

Temporary grazing crops that have been grazed down need another 40 pounds of nitrogen per acre for more grazing.

Temporary grazing crops planted in June need 500 pounds per acre of a high analysis fertilizer at planting time. Where only nitrogen is needed, apply 60 pounds per acre.

Johnsongrass after hay cutting needs at least 60 pounds of nitrogen per acre.

Grain Sorghum planted in June needs 90 to 100 pounds of nitrogen to the acre plus 60 pounds each of potash and phosphate.

Soybeans planted in June need from 0-40-4 to an 0-60-60 to the acre.

Dairy cattle are big ones up there, too.

### JOYOUS BURDEN

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the breeding of character and good works, the storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs him to help it find support. Plan to go to church regularly and read your Bible daily.

There are men who carry the weight of the world on their shoulders — but this isn't one of them.

There is no burden so joyous as the responsibility of being DAD.

But — hold on there! Don't forget it is a burden. Someone's future is on your strong back.

And that someone's future involves soul as well as body.

If you want your boy to become a good ballplayer . . . well, you go out and catch with him.

And if you have hopes for his character, his courage, his commitment to things Right and True . . . yes, a boy loves to walk into HIS CHURCH with HIS DAD.

A \$1.5 million contract has been awarded to Carpenter Brothers of Dallas, Texas, for the construction of the Test Maintenance Building at the NASA Mississippi Test Facility in Hancock County, Mississippi, according to an announcement made today by Colonel D. W. Raymond, U. S. Army District Engineer at Mobile, Alabama.

The Texas firm will construct the Test Maintenance Building immediately adjacent to the Site Maintenance Building, which is already under construction. It will consist of a central bay about 64 feet high and 2 side areas 36 feet high, containing a total floor area of about 45,000 square feet. Two reinforced concrete test cells, 12 feet by 16 feet, and a paint shop, with a floor area of 1,365 square feet, will also be constructed.

Work is expected to begin shortly and to be completed the last of June 1965.

The Corps of Engineers sent advance notices to contractors on this job to 1,906 contractors and material suppliers, furnished plans and specifications on request to 14 prime contractors and 131 subcontractors and material suppliers, and received 6 bids from prime contractors. This contract was set aside for award to a small business and survival.

During the training recruits receive tests and interviews which determine their future assignments in the Navy. Upon completing the program they are assigned to service schools for technical training or to ships and stations for on-the-job training in a Navy rating specialty.

Naval training produces the power in seapower by supplying qualified personnel to man ships, planes and shore stations of today's Navy.

#### INCREASE IN DROWNING TRACED TO CARELESSNESS

The recent tragic increase in drownings can be traced to carelessness in each instance, according to Donald J. Cray, President of the Mississippi Safety Council.

Gray, speaking of the unusually

high number of deaths by drowning, pointed out the three major causes for drowning as reported by the press.

First there was the overloading

of a boat; then one drowning came about because a person swam too soon after eating and suffered a cramp seizure; finally, a walk in unfamiliar water caused another death. A father was wading with his small son and stepped into a deep hole. The father drowned.

Gray said - overloading a boat,

swimming too soon after eating, wading, swimming or diving in unfamiliar water were the main reasons for drowning and could easily be avoided.

The Council President said water sports were fast becoming one of the state's favorite recreational pastimes and that the safety problems accompanying the sport have reached the point where regulations governing boating and swimming activities must be developed and enforced.

"We are glad the Legislature established a Boating and Water Safety Commission," Gray said. "This Commission can do much to develop the regulations necessary

#### SENATORS FORGETTING RESPONSIBILITY IN CIVIL RIGHTS FIGHT

(By Senator John Stennis)

WASHINGTON - Senator John Stennis declared here this week that Senators favoring the civil rights bill, "have completely turned their backs on responsibility."

Southerners who have fought tooth and nail through more than three months of filibustering and prolonged debate, to kill the civil rights bill were handed a serious setback when the Senate voted 71 to 29 to invoke cloture and thus bring the debate to an end.

Immediately, Southerners re-gained the leadership of Georgia's Senator Dick Russell and began to fight anew with a bushel of amendments to try to weaken the vicious bill.

Russell appointed a three-member committee of Southern Senators to screen and choose particular amendments on which they would concentrate their efforts on a priority basis to try to get them passed through the Senate.

Russell picked his three Southern team captains for this special committee, with Senator Stennis in charge, assisted by Senators Lister Hill of Alabama and Allen Ellender of Louisiana.

First came the jury trial amendment which the Senate adopted. It provides for a jury trial in federal criminal contempt cases arising from the civil rights bill in all actions except voting suits.

Then Stennis called up his amendment to make it a federal crime to travel across State lines with the intent and purpose of violating State laws, thus outlawing the hated Freedom Rider movement that has wrought violence and chaos throughout the Southland.

Senators in favor of the civil rights bill beat down the Stennis amendment by a vote of 72 to 21.

Stennis, a former judge who had presided over the Senate Thursday afternoon with courtroom firmness and judicial authority, issued a blistering attack upon proponents of the bill for defeating his amendment.

Stennis, with the most commanding voice in the entire Senate, said, "My amendment designed to preserve law and order, should have been adopted overwhelmingly."

In their haste to railroad the civil rights bill through the Senate, proponents of the bill have completely turned their backs on responsibility."

Mr. and Mrs. Jordan Johnson and son Jordan, Jr., of New Orleans are spending a few days in their summer home in Clermont Harbor.

Guest speaker was Capt. Orton A. Jones of the Judge Advocates Office, Keesler Air Force Base, who spoke on the various phases of military law and procedures.

The local chapter will host the Mississippi Association of Legal Secretaries annual convention to be held in April or May, 1965, in Biloxi. Among the projects planned by the Association to pay the expenses of the convention is a rummage sale to be held in Gulfport in the near future, and the giving away of an oil painting by H. H. Betts, well known artist on August 12. The painting was done by a prominent Biloxi attorney, and will be on display in a local department store for the next two weeks, after which it will be displayed in Gulfport and Biloxi. Ticket may be acquired from Mesdames Mallini, Moran and A. E. White and Miss Favre.

Separate Proposals are invited and will be received for each of the following divisions of work:

CONTRACTUAL DIVISION NO. I: General Construction, which covers all construction, except work in other Contractual Divisions.

CONTRACTUAL DIVISION NO. II: Mechanical Work - Plumbing, Heating, Ventilating and Air Conditioning, and Kitchen Equipment.

CONTRACTUAL DIVISION NO. III: Electrical Work.

Combination Proposals, including General Construction, Mechanical Work and Electrical Work will be received.

Complete plans, specifications and other pertinent contract documents covering the proposed work are now on file and open for public inspection, and may be examined in the office of the Clerk of the Board of Supervisors of Hancock County, Mississippi, in said Courthouse, and copies thereof may be obtained from the office of Landry & Matthes, Architects, 214 West Pine Street, Hattiesburg, Mississippi, upon deposit of \$75.00 for each set of such plans and specifications. The full amount of each deposit for one set of documents will be refunded to each actual bidder submitting a bid upon return of such set, complete, in good condition, within 10 days after the date of the opening of bids. Refunds for additional sets to actual bidders and to non-bidders will be returned, less approximate actual cost of reproduction of the documents, upon the return of all documents in good condition within ten (10) days after the date of opening of bids.

The order set at 73,280 pounds the limit for trucks. The action by the former governor-drawbridge from business circles and complaints from some state legislators.

The recent session okayed a law to increase the limits to the amount set by Barnett's order. But to be legal, the law specified the limits must be obeyed by the Highway Commission.

Barnett said he wanted a "legal interpretation" of the limits to know exactly where his office stands. The comptroller is charged with enforcing the load limits.

A decision is expected next week, the comptroller indicated.

The new law would permit the commission to okay the increased limits on roads suitable from an engineering standpoint.

The bill requested that the commission take into consideration economic factors involving agriculture and industry, where such limits were shown "practical and necessary."

NAME NEGRO U. S. MARSHAL

JACKSON, MISS. - James L. Middleton, of Jackson, was sworn in this week as the first Negro U. S. Deputy Marshal in Mississippi in modern history.

Chief Marshal James McShane of Washington appointed Middleton to the post.

Middleton, a former Jackson school teacher, is a graduate of the Tuskegee Institute.

He will work as a regular field deputy out of the Jackson office.

PRESSING-EFFORT ON SCHOOLS

JACKSON, MISS. - A special 15 member education study committee pressed efforts to formulate proposals to cope with court-ordered school desegregation.

The group headed a day-long session Tuesday and is now back at the capitol to work out plans to be considered by a special session of the Legislature June 23.

Four Mississippi public school systems are under court orders to integrate. They are Jackson, Biloxi, Clarksdale and Leake County.

The committee, headed by Gov. Paul Johnson, agreed last week to split into two subcommittees. One is charged with drafting legislative proposals to set up a grant-in-aid tuition program, and the other with providing finances for the tuition program.

Published by order of the Board of Supervisors of Hancock County, Mississippi, on the 8th day of June, A.D. 1964.

## LAKESHORE AND CLERMONT HARBOUR NEWS

By Alene (Fox Was) Coopers

Mr. and Mrs. Jordan Johnson and son Jordan, Jr., of New Orleans are spending a few days in their summer home in Clermont Harbor.

Birthday wishes go out this week to Vic Green who celebrated her 18th on June 17.

Preparations are being made to open a beauty salon by Alice Kline along Railroad Avenue in Clermont Harbor.

Last but not least the members of the St. Ann's Catholic Church in Clermont Harbor wish to thank the many, many people who worked so diligently to make this fair such a big success.

Also special thanks go to those who attended this worthy enjoyment.

Get well wishes are extended this week to Rob Ladine of Lakeshore who has been ill to Mrs. Edgar Williams of Lakeshore who has pneumonia, and to Mrs. Ferdinand Ramond who has been on the sick list.

Separate Proposals are invited and will be received for each of the following divisions of work:
